

Midlands Orthopaedics, PA (MOPA) is pleased to provide you with information regarding cost, quality and ease of access so you can make an informed decision when selecting an imaging provider to perform your MRI.

MOPA physicians own a high-field 1 Tesla Siemens MRI unit located at our Blanding Street office to provide you convenient access to quality MRI images at prices that are equal to or less than the competing services listed below. The Tesla Unit is a label on every MRI scanner signifying the strength of the MRI magnetic field. The stronger the magnetic field, the better the images produced by the MRI. We are pleased to offer you exceptional image quality in our high-field MRI unit.

The Patient Protection and Affordable Healthcare Act (Sections 6409 and 6003, dated March 23, 2010) requires us to provide information on facilities other than those owned by our physicians. You have the right to choose your facility. If you would like to receive your MRI at another facility, we will gladly give you the order so that you can make the necessary arrangements.

Sincerely,
Doctors and Staff, Midlands Orthopaedics, PA
