

My Insurance Manager Access for SC BlueCross BlueShield PPO Patients

By registering on-line at www.southcarolinablues.com, you can access “My Insurance Manager.” Doing so will give you access to all claims, eligibility info, deductible and out-of-pocket info, requesting additional or replacement cards, etc. Everyone will be required to update information with BCBS about other insurance coverage you may have before any claims will be paid on your behalf. This annual update is required by all insurance carriers. You may complete the update online after you register with My Insurance Manager.

From the main BCBS webpage, select “I’m a Member”. On the next page, select “My Insurance Manager”. From there, you’ll need to register to set up your personal account. After you register, one of the options at the top of the page will be “Update Other Insurance.” BCBS SC requires all patients to update other insurance information each year even if there have been no changes to your coverage. Please complete this process so your claims will be processed without delay.
